Meeting? When?

What can I use?

Google Calendar

This leads to...

Anxiety

Low Productivity

Missing Deadlines

Goals

Facilitate time management for individuals and groups

- Automate identification of compatible timeslots between users
- Suggest complementary activities
- Send personalized notifications to promote proactive time management

Expected results

- **Potential Productivity Improvement**
- **Simplify Coordination**
- **Possible Decrease In Stress**
- **Adapt to users' preferences/needs**

Next Steps

Collect data from our target audience

What type of platform should we use

What are our future users priorities

What functionalities should we implement

Calendar
